TUNAP

Competitive Comparison

TUNAP Grill Cleaner

Conventional Grill Cleaner

Test spills from top to bottom: Gravy, tomato and cheese mixture, syrup mixture.

Result

TUNAP Grill Cleaner effectively removes the test soils of gravy* and syrup mixture*.

The high foam stability and adhesion ensures better cleaning performance even on vertical surfaces compared to other cleaners.

*Test soils according to specifications of the IKW recommendation for quality evaluation of product performance of oven cleaners. Source: Industrieverband Körperpflege- und Waschmittel e.V. (IKW), Cleaning and Care Products Division
